The importance of adding print advertising media to your marketing campaign is actually a lot more far reaching than you might think.

Print advertising actually has the ability to do some of the things that almost no other type of advertising is able to do.

1: Newspapers and magazines are kept around for months and are convenient to rip out and fold and keep in their pocket or hang on their refrigerator until they are ready to use them.

2: Affordable rates and guaranteed readership equals results! Don't waste money competing with other content...The Trader is 100% advertising!

3: People are constantly being bombarded with advertising on their phones, social media pages and television, so they tend to ignore advertising altogether. People who pick up a paper to read are doing so because they want to, and will be more focused and engaged in reading what your ad offers.

4: Most people are more trusting of a business they see in print advertising. Print advertising improves the results of other types of advertising as people are more apt to remember the ads they saw in print.
